

## Cyber Security Tips

Usually, when putting together the IT Tip of the Week, I scour the Internet for possible topics and then have to find a way to communicate the topic at a level understandable for everyone, not just us computer geeks. This week, however, I'd like to mix it up a bit and provide some links to articles published by the United States Computer Emergency Readiness Team that address some very important topics in a manner that not only detail what to do or not to do, but explains why to perform certain actions as well.

Guidelines for Publishing Information Online:
